13 MAR 1964

Mr. John A. McCone
Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. McCone:

The US Army Armor School conducts a guest speaker program each academic year to augment the regular program of instruction for the Armor Officer Career Class. Student response to these presentations has been highly enthusiastic, and a similar program is being planned for this year.

We believe that a presentation on the subject "The Central Intelligence Agency" would be of exceptional interest and value to our student officers, and I would appreciate very much if you or someone of your choosing, could speak on this vital subject. A suggested general scope would be a presentation of the organization, functions, responsibilities, and operational aspects of the Central Intelligence Agency in the overall field of intelligence, including coordination with and assistance rendered the Armed Forces.

Our preferred date for this address is 6 May 1964. If it is not possible to schedule a speaker on this date, please let us know some other convenient date. Presentations are scheduled for two 50-minute periods from 0940-1130 hours. The first period is normally utilized for the talk, and the second is reserved for questions from the audience.

I sincerely hope that you will find it possible to fit this address into your schedule, for I am certain that such a talk will contribute materially to the professional growth of our young officers.

Sincerely,

J. E. BASTION, JR.
Major General, USA
Commandant
